

Art.-No.: 6.8070.1000

8070

Finishing Compound High Gloss

Characteristics

8070 maintains and refines new to medium weathered gloss paintwork. This silicone-free polish creates an optimum streak-free mirror finish both mechanically and manually. The treated surfaces are protected over a long period. Depending on the degree of weathering of the paintwork, various pad hardnesses support the cleaning process and in this way optimise the cleaning performance. 8070 is ideally suited for all types of paint.

Application

Shake before using.

Apply the polish with a medium to soft polishing pad depending on the surface and polish off almost completely using a rotary polisher at medium speed. Also suitable for manual treatment. Use microfibre cloth to buff polish residues to a mirror finish. Do not use on hot surfaces. Before using, check suitability and compatibility.

Areas of use

Paintwork of cars, commercial vehicles, motor cycles, etc.

Technical Data

Colour	light-green
Colour	vanilla
Bottle	HDPE, 1000 ml

Storage and Transportation

Keep dry and frost-protected. In tightly closed original containers at least 2 years shelf life.
