Technical Data Sheet Revised: 2021-05-05 | 1/2

Art.-No.: 6.8846.0500

8846

8846 Rust Remover

Characteristics

Ready-to-use compound based on a highly active inorganic acids in a spray bottle.

It is used to clean the surface both from the contamination of corrosion of steel (rust), and from corrosion streaks on metal surfaces.

- Quickly and effectively dissolves rust and rust stains
- Cleans the surface effectivly from corrosion by chemical means, without mechanical impact
- Does not spread in a thin layer, remaining in the application area, which increases the effectiveness

Tech Tip

Carry out the treatment at an ambient and surface temperature of at least + 5 ° C.

Attention!

- To avoid haze, do not apply to chrome plated surfaces.
- Since the composition is a solution of strong acids, the duration of treatment should be minimal in order to avoid damage to the paintwork and plastics. Cleaner residues must be removed immediately as soon as corrosive streaks are dissolved.
- Avoid 8846 Rust Cleaner exposure on paint and plastic areas that do not require cleaning.

Application

Clean the surface from dirt, grease and dust. When processing heavily rusted metal surfaces, clean loose rust with a metal brush.

- Apply the Rust remover to the surface and wait for 5 to 15 minutes.
- When processing on metal, leave it on the surface for up to 30 minutes.
- For heavily rusted metal surfaces, repeat the treatment until the rust is completely removed.
- Rinse the treated surface thoroughly with plenty of shampoo and water then dry it.

Safety measures

Attention! The mixture contains inorganic acids!

- Use in a well ventilated area.
- When working, use personal protective equipment for eyes (glasses), breathing (respirator) and skin (gloves).

In case of contact with the skin and eyes, rinse with plenty of water, if necessary consult a doctor.

Do not swallow!

Do not breathe in the vapor!

Keep out of the reach of children!

Storage and Transportation

It is recommended to store and transport at temperatures from +5 to + 50 $^{\circ}$ C. Avoid direct sunlight.

Store in a well-ventilated area in a tightly closed container. Sell-by date: 3 years.
