## 8851 Leather cleaner

### Characteristics

---

Ready-to-use composition based on glycerin, silicone oil and surfactants.

For cleaning and renewing leather surfaces of cars and motorcycle equipment  
Effectively removes dirt from micro- cracks in leather upholstery, significantly renewing its appearance without damaging the natural structure of the leather.

- Restores softness and elasticity of the leather upholstery, protects against drying out, cracking and fading
- Gives upholstery a nice appearance and a silky shine
- Forms a protective film on the surface, due to which the surface acquires the ability to repel dirt
- Absorbs quickly and leaves no greasy residue - you can sit on the seats almost immediately after cleaning, without a risk of getting dirty
- Eliminates unpleasant odor in the car interior, leaving a pleasant aroma

Contains silicone.

### Tech Tip

---

Suitable for cleaning natural leather, leatherette, vinyl and rubber surfaces.  
Also well for household purposes, for example, for leather furniture, accessories and clothing.

### Application

---

Shake the contents of the bottle well.

Turn the trigger to the SPRAY position and apply a small amount of compound on a dry, clean cloth or spray directly onto a leather surface.

Rub in with gentle circular motions and buff up with a dry, clean cloth.

After processing, turn the sprayer to the OFF position.
