## 8852 Plastic polishing and cleaning compound

### Characteristics

---

Ready-to-use composition based on surfactants, glycerin and silicone oil for plastics cleaning and restoration.

Can also be used for cleaning and polishing leather, vinyl, plastic and rubber products.

- Cleans surfaces from organic and inorganic contaminants
- Gives the surface a fine appearance and shine
- Forms a protective layer, due to which the surface acquires the ability to repel dirt
- Eliminates unpleasant odors in the car interior, leaving a pleasant aroma.

Contains silicone.

### Tech Tip

---

Cleaning car dashboards, unpainted bumpers, tires, leather and vinyl upholstery in cars.

It is recommended to use a soft brush for cleaning parts with complex surface geometries (radiator grille, bumper elements),.

### Application

---

Apply the plastic cleaner on the surface and gently spread over the surface with a microfiber cloth.

After processing, turn the sprayer to the OFF position.
