## 8861 Engine Degrease

### Characteristics

---

Ready-to-use detergent composition based on surfactants in a spray bottle for cleaning of the engine surface and other parts of the engine compartment from burnt technical fluids, oil drips, salt deposits, etc.

excellent for Pre-sale preparation of cars, cleaning of the car engine and car engine compartment, motorcycles, boats, garden and agricultural machinery, as well as before and after repairs.

- Forms a thick foam that quickly and effectively removes various types of dirt on the engine compartment, preventing any short circuits and fire
- Bottle with a trigger
- Penetrates into the deep layers of dirt, softens and removes sintered deposits
- Does not contain solvents, therefore it is safe for plastic and rubber.

### Tech Tip

---

Turn on the engine and let it warm up for 2-3 minutes and then turn it off before starting the treatment.

Protect all electrical parts of the engine from getting wet.

### Application

---

Apply cleaner from a distance of 20-30 cm on the surface of treatment.

Let it stay for 5-10 minutes and then wash off the dirt with a strong jet of water.

Let the engine Dry for 15-20 minutes before starting the engine.

When finished, turn the trigger to the OFF position.
