## Ceramic Crystal Coating

### Characteristics

4CR Ceramic Crystal Coating is a high Performance wax which offers a strong and durable protection as well as its incredible self- cleaning abilities, Raindrops and soiling simply bead off and it also gives a deep gloss and a smooth surface.

- Creates a long lasting deep high gloss with an added protection and an excellent chemical resistance.

Contains silicone.

### Tech Tip

- Do not use under direct sunlight and high temperature or where there is heavy dust.

### Application

- First clean and dry the car surface and make sure all contaminants have been removed
- Use a slightly dampened sponge applicator and spread thinly on to the car surface.
- Allow to dry to a haze and then buff up with a clean and dry Micro cloth (6255 Microfiber cloth) Panel wise.
- Buff it up lightly for a deep gloss.

### Technical Data
